

iPECS Cloud

from Ericsson-LG Enterprise
managed by My Communications

Simplified Communications

With iPECS Cloud

What is iPECS Cloud?

iPECS Cloud brings all of the features you know and love from an on-premise phone system and delivers them through the cloud.

iPECS Cloud is tailored to deliver reliable and simple communications to your desktop from our highly secure and resilient data centres. This means we manage the phone system for you and you just use the handset, web portal or applications to access everything you need, when you need it.

Why would it suit my business?

Because iPECS Cloud is designed to scale it suits all sizes of business whether you are have a single home office or multiple locations around the globe.

With on-demand features and same-day provisioning you can add users or remove users quickly and easily. With our advanced feature packs you can completely tailor the user's experience and provide a call centre solution, reception console and much more with a simple click.

What benefits will it deliver?

iPECS Cloud brings your teams together with simple tools for collaboration and communication.

On-demand access to features and the ability to add or remove users means you have the flexibility to adapt to your business needs.

With fully featured handsets and simple web, PC or smartphone interfaces your users will understand the benefits of iPECS Cloud in record time.

Cloud Solutions tailored to the needs of your team

MANAGING DIRECTOR

"iPECS Cloud means I can scale and grow my business with confidence and know that everyone in my business can communicate and collaborate."

OFFICE MANAGER

"The wallboard tells me and the team when we all need to grab the phones and simple reports help me stay on top of costs and response times."

MOBILE SALES EXECUTIVE

"I am always on the go and iPECS Cloud has enabled me to access my office communications regardless of device, location or time."

SALES AND SUPPORT AGENT

"I can support my customers better as they know what's happening if they ever have to queue. There's a simple announcement with auto attendant helping direct the call."

GLOBAL ACCOUNT MANAGER

"Travelling abroad used to mean lots of expensive calls to the office and restricting calls home to my family but with iPECS Cloud technology on my smartphone and laptop I can easily call at local rates wherever I am in the world."

WAREHOUSE SUPERVISOR

"My mobile IP DECT handset means wherever I am everyone can still easily reach me. My team can also share a phone and access the communications they need."

RECEPTIONIST

"I can easily see what everyone is doing and transfer calls with a single button or mouse click. It's never been easier."

IT MANAGER

"With a simple and intuitive web portal I can make changes to iPECS Cloud myself and complete handset moves quickly and easily."

HOME BASED WORKER

"Being able to see the status ("presence") of my colleagues and instant message quick questions makes me feel like I am sitting next to my team."

Phones

These handsets are designed to provide a simple user experience with access to the full iPECS features and functionality

LIP-9002

Ideal for businesses needing to access the functionality of the iPECS platform with HD Voice and a headset interface. A perfect handset to deploy to all users requiring a simple interface to the iPECS platform. Group directory access currently not available.

LIP-9010 / 9020

These mid-range phones give businesses the full functionality of the iPECS platform with HD voice, full duplex and headset interface. These handsets offer additional programmable keys meaning you can quickly access the features your users need with a single button. The LIP-9020 includes gigabit support.

RECOMMENDED BY MY COMMUNICATIONS

LIP-9030 / LIP-9040C

If your business receives a high volume of calls, integrated presence helps show user availability. These high-end phones have programmable keys viewable across three pages, include gigabit support, HD voice and headset interface. The LIP-9040C has a coloured screen as standard.

LIP-9071

This top-of-the-range handset delivers an immersive telephony experience, with a full touchscreen interface and wireless and Bluetooth support via a dongle. With HDMI output and full support for Android apps as well as web browsing means you have a phone and tablet in a single device.

Phones, Clients and Redundancy

Tailor for your users with the right devices for their needs

IP DECT

iPECS IP DECT provides your team with full access to the system regardless of their location. Perfect for staff on the move or working in warehouse, workshop or campus locations.

IP Attendant Reception Console

With high volumes of calls, a quick and easy interface to answer and transfer the calls is vital. IP Attendant provides a simple and intuitive tool to support a busy reception. Compatible with Windows PC environments.

LSS/DSS Console

This console enables you to collate all your key contacts onto a button on speed dial, creating efficient working and saving you time with the added bonus of viewing when your contacts are on another call.

Local Redundancy

You can complement iPECS Cloud with an iPECS on-premise call server. This gives you complete peace of mind and business continuity.

KILLER FEATURE
Unique to this product.
Making this a sound
and safe investment.

Unified Communication and Collaboration

Empowering your team to work together more productively

UCE Mobile

Collaborate with colleagues and stay in contact with customers whilst on the move.

Key Features include:

- Presence: Easily see whether your colleagues are available using integrated presence
- Instant messaging
- Easy and intuitive conference calling
- Visual voicemail

Database Integration

UCE Desktop

Access the power of iPECS Unified Communications wherever you are with iPECS UC desktop client on your PC.

Key Features include:

- Instant Messaging
- Audio conference manager to set up ad-hoc or a conference room
- Visual voicemail

Skype for Business Integration

Voice enable your Skype for Business Unified Communications tools using our simple application. Both Office 365 and on-premise Exchange are supported with this simple add-on app that fully integrates iPECS into your Microsoft UC desktop.

Integrated Applications

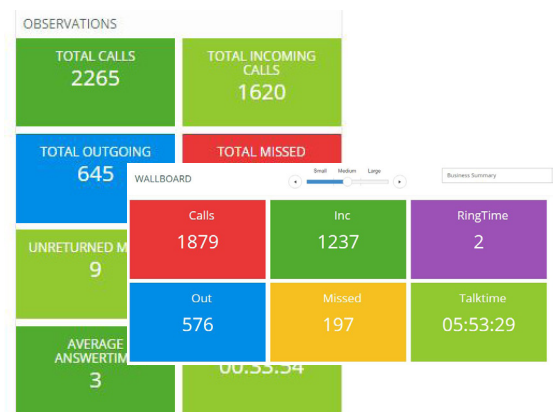

iCall Suite insight and report integrates seamlessly with the iPECS Cloud to deliver real-time analytics. Businesses can monitor call metrics by accessing real-time reports, customisable dashboards, wallboards and call recordings.

iCS Insight is a business productivity tool delivering powerful call data visualisation via pre-defined dashboard and wallboard.

Call data visualisation

- **Accessible from any internet facing device:** Access call analytics via a web browser on traditional desktop devices or monitor on the go through your mobile.
- **Call metrics:** Delivery of essential call information via an intuitive dashboard and visual wallboard.
- **Monitor performance:** View call activity by DDI / extension / user.
- **Export and email:** Export reports as PDF or CSV and email to any email address.
- **Quick access via any client device:** Quick access to KPI reports.
- **Mobile-optimised:** The mobile-responsive application design facilitates access to business reports whenever and wherever needed.

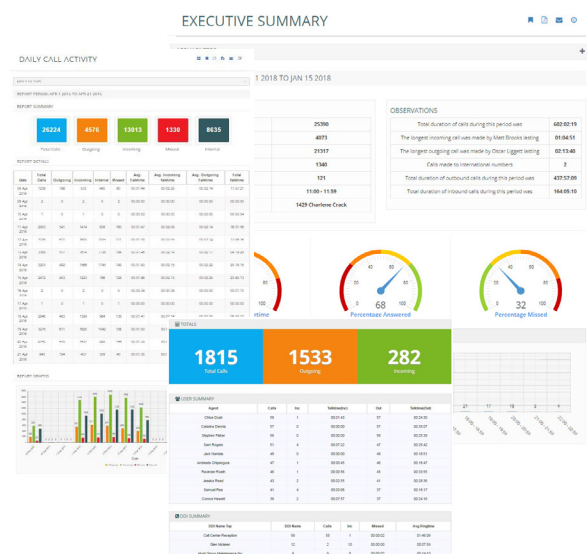

Monitor inbound and outbound calls on any device using iCS Report. Access configurable dashboards and detailed reporting. View wallboards, run and schedule reports.

Manage service levels and make informed decisions

- **Browse an extensive catalogue of reports** or use filters to customise your own to identify trends in performance. Report on call activity by extension, department, DDI and user.
- **Incoming call analytics.** Measure call volumes, targets, grade of service, percentage calls answered and unreturned missed calls.
- **Schedule reports** for yesterday, last week or custom dates.
- **Executive reports** collate data from multiple reports and provide observations and recommended actions.
- **Customised dashboards and wallboards.**

Detailed analysis enables you to maximise staff and resource productivity, minimise costs, avoid missed opportunities from dropped calls and deliver the highest levels of customer service.

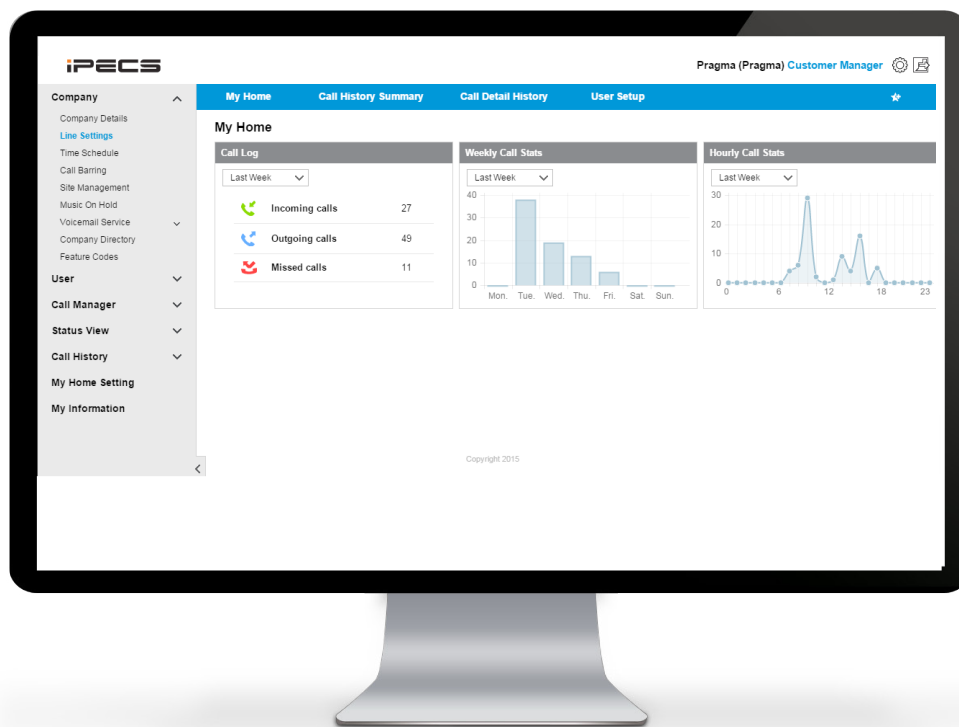

Cloud Portal

Take control of your business communications
