

iPECS IN PROFESSIONAL SERVICES

With Ericsson-LG Enterprise

managed by My Communications

POWERFUL AND RELIABLE COMMUNICATIONS SUPPORTING UK PROFESSIONAL SERVICES

IP and Digital Hybrid unified communications platforms, data networking, productivity applications and desktop devices.

iPECS UCP is Ericsson-LG Enterprise's unified communications platform designed to help UK Professional Services to communicate and collaborate with all of their stakeholders. By keeping employees connected, team and client communication becomes more responsive allowing you to deliver a high value service that stands out from the competition.

iPECS Unified Communications empowers people across your business to be more productive and efficient, regardless of their location or chosen device. Keep costs down and increase billable hours by reducing the need for unnecessary travel expenses and unproductive time.

The iPECS range covers small to large businesses with a range of platforms that can scale to meet the needs of between 2-2000 users. Each platform utilises the same core features and software ensuring the industry can benefit from the power of iPECS.

Simple Unified Communications

iPECS Unified Communications capability is built in to UCP. Users can use voice, video, instant messaging, conference calls, visual voicemail, all on one simple and easy to use platform. UC is designed to be intuitive and provide your team easy to use tools and features.

Reliable and Resilient

Total reliability is the only option for your communications. iPECS UC is designed to deliver complete resilience through geographic redundancy and inherent modular architecture.

Anytime & Anywhere Connectivity

Access the power of your iPECS unified communications platform your way regardless of your device or location using smartphone, tablet or PC applications.

Integrated applications tailored to your needs

iPECS is designed to offer a range of enhanced applications from Ericsson-LG Enterprise and other specialist application providers. Integration into standard office applications such as Microsoft Outlook or Lync as well as other applications means your communications are truly integrated.

Leverage the latest standards based technologies

iPECS UCP helps you to make the most of the latest network technologies such as SIP, optimise call costs using WiFi or use in built voice conferencing to save on external conference services.

Scale with your growth

iPECS is designed to deliver the flexibility you need as your organisation grows. Your communications can easily adapt to meet changing needs.

Building blocks for your Unified Communications strategy

Easy UC

No additional hardware options to deliver standard UC to your team. Just choose your licences and go.

Mobile Access

Access the power of iPECS UC wherever you are with the intuitive iPECS UC mobile client.

Video

Bring interactions alive with video calls from your handset, PC client or smartphone application.

Presence & Messaging

Easily see if colleagues are available and quickly communicate using instant messaging.

Application Integration

Easy integration into Outlook or click to call from any application.

Unified Communications For All Of Your Team

iPECS UCP tailored to the needs of your users

MANAGING DIRECTOR

"iPECS helps me run my business, provide the service my clients need and control my costs. Every member of the team gets the communications tools they need to do a great job."

OFFICE MANAGER

"The wallboard tells me and the team when we all need to grab the phones and simple reports help me stay on top of costs and response times."

ACCOUNT MANAGER

"I can take my office phone extension with me wherever I am as my smartphone is integrated into the system meaning my clients can easily reach me anytime and colleagues can see when I am available."

ASSISTANT

"iPECS UCP helps me to manage all of the incoming calls and keep clients fully up to date, providing a rapid response to their questions and issues."

GLOBAL ACCOUNT MANAGER

"Travelling abroad used to mean lots of expensive calls to the office and restricting calls home to my family but with iPECS UC technology on my smartphone and laptop I can easily call at local rates wherever I am in the world."

HR MANAGER

"The ability to offer current and prospective members of staff the option of home-based and flexible working has really helped to attract and retain top talent."

RECEPTIONIST

"I can easily see what everyone is doing and transfer calls with a single button or mouse click. It's never been easier."

IT MANAGER

"With a simple and intuitive web interface I can make changes myself and complete handset moves quickly and easily."

HOME BASED WORKER

"I use my phone just the same at home as if I was in the office. Being able to see the status ("presence") of my colleagues and instant message quick questions makes me feel just like I am sitting next to my team."

iPECS UC Overview

iPECS UC delivers the tools and features to support your team

iPECS UC Features

Evolving to your needs

iPECS UC can scale with your business as your needs and requirements develop from UC standard to premium.

Mobile Client (Android/iOS)

Enhance your mobile communications with all of the power of your iPECS UC solutions using a simple to set up application.
